"Our partnership with Thinc Forward has been nothing short of transformative. Their strategic approach to IT implementation, management, and ongoing support has been instrumental in rapidly scaling our expansion."

- CIO of growing, 50+ location DSO

WHY CHOOSE THINC FORWARD?

Proven Efficiency

We've partnered with major dental industry leaders to gain extensive expertise in dental cloud implementations, digital radiography, and Denovo services.

Skilled Engineering Team

Our experienced, U.S.-based dental technology engineers have deep expertise deploying multiple types of dental software.

Time Savings

We expedite project timelines and transitions through streamlined environment readiness and a proven, expert-led process.

Resource Savings

Clients partnering with us achieve significant internal man-hour reductions, enhancing operational efficiency.

Nationwide Support

We offer on-the-ground support across all 50 states and Canada, ensuring comprehensive assistance wherever clients operate.

Effective Communication

We ensure efficient coordination with strong vendor relationships and seamless communication.

Comprehensive Expertise

Clients access industry experts on various dental platforms at no extra cost, ensuring tailored support.

Post-Implementation Support

We provide ongoing remote and on-site IT and security support, ensuring long-term success and peace of mind.
