- CIO of growing, 50+ location Healthcare Organization

WHY CHOOSE THINC FORWARD?

Proven Efficiency

We've worked with hundreds of healthcare clients, collaborating with some of the industry's largest players.

Skilled Engineering Team

Our seasoned, U.S.-based healthcare technology engineers excel in deploying a diverse range of products, ensuring tailored solutions for every client.

Time Savings

By streamlining environment readiness and employing a proven process guided by experienced professionals, we expedite project timelines and transitions.

Resource Savings

Clients partnering with us witness significant reductions in internal man-hours, optimizing operational efficiency.

Nationwide Support

With a presence in all 50 states and Canada, we provide on-the-ground support, ensuring comprehensive assistance wherever our clients operate.

Effective Communication

We facilitate seamless communication with clients' in-house or outsourced vendors, ensuring efficient coordination without the need for vendor switches.

Comprehensive Expertise

Clients can access industry experts across various technical healthcare platforms at no additional cost, guaranteeing comprehensive and tailored support.

Post-Implementation Support

Thinc Forward offers ongoing support in various IT and security areas, ensuring clients' long-term success and peace of mind.
